Andrew Hill

andrewhill157@gmail.com | (860) 303-8849 | www.andrewjohnhill.com

Education

University of Washington, Seattle
B.S. in Bioengineering with College Honors (2012)
3.79 Departmental GPA; 3.69 Overall GPA

Research Experience

MacArthur Lab of Massachusetts General Hospital/Broad Institute of MIT and Harvard 9/2013 – Present
Research Assistant

- Wrote Python scripts to extract/refine data from Leiden Open Variation Databases.
- Mapped HGVS variant coordinates to genomic coordinates and validated results via annotation.
- Comparing the consequences of using different gene models and tools for annotation of variants from whole exome and whole genome sequencing projects.

Tekscan, Inc. 9/2012 – Present
Applications Engineer

- Conducting engineering research projects for new applications of force and pressure sensors.
  - Implementing machine learning algorithms to estimate shoe-size from pressure sensor data.
  - Signal processing and data analysis for IMU position/angle tracking of human gait.
  - Greatly improved algorithms for gait-analysis from Tekscan pressure sensor data.
- Developing automated test fixtures and data-analysis scripts with MATLAB and LabVIEW.
- Providing engineering support and/or training to customers and all internal departments.

UW Biorobotics Lab (Professors Blake Hannaford and Howard Chizeck) *1/2010 – 6/2012*
Undergraduate Research Assistant

- Thesis: Online Modeling of the *In Vivo* Mechanical Properties of Soft Tissue for Robotic Surgery
  - Designed, built, and programmed electromechanical device to quantify in vivo tissue dynamics.
  - Developed Unscented Kalman Filter/signal processing using MATLAB/C++.
- Co-developed hardware and microcontroller code for haptic-enabled glove.
- Developed hardware and microcontroller code to detect peg-contact in FLS block-transfer task.

Professor Joan Sanders Lab 8/2009 – 1/2010
Undergraduate Research Assistant

- Collected/analyzed data to calibrate tri-axis force sensor for amputee gait analysis.
- Designed and built Plexiglas housing for patient-mounted electronics.

Selected Coursework

Probability and Statistics	Organic Chemistry	Biochemistry
Embedded Microcomputer Systems	Computer Science I&II	Signal Processing

Independent Coursework

- Machine Learning — Coursera (Stanford)
- Algorithms Design and Analysis – Part 1 — Coursera (Stanford)
- Circuits and Electronics — MIT Open Courseware
- Manual Machining and Layout (Mill and Lathe) — Artisan's Asylum

Skills

- **Computing:** Java, Python, C#, C/C++, MATLAB, LabVIEW
- **Web Development:** HTML, CSS, JavaScript
- **Software Development Tools:** Git, Mercurial, Eclipse, Visual Studio
- **Operating Systems:** Windows and UNIX-based operating systems
- **Embedded Systems:** ARM and Arduino embedded system programming
- **Machining:** CNC mill, lathe, band-saw, drill-press, various hand tools

Coaching and Teaching Experience

iD Tech Camps Summer 2012
Summer Camp Instructor: Programming in Java and Adventures in Robotics

UW Bioengineering Department Circuitry Workshops Winter 2012
Volunteer Instructor

UW Bioengineering Outreach Program 12/2011 – 6/2012
Ultrasound Education Module Co-Developer and Instructor

United States Gymnastics Training Camps Summers 2005 – 2010
Counselor and Coach

Leadership Experience and Activities

Dana-Farber Cancer Institute, Brigham and Women's Hospital 9/2012 – 4/2013
Volunteer – Kraft Family Blood Donor Center

UW Biomedical Engineering Society 6/2011 – 6/2012
Vice President and Webmaster

UW Honors Department 9/2008 – 9/2009
Peer Mentor

Washington Men's Gymnastics Team 8/2008 – 10/2009
Team Member

Selected Awards and Honors

- Mary Gates Research Scholarship
- Annual Dean's List
- USA Gymnastics Men's Program Scholarship
- Friends of Gymnastics Scholarship

Presentations

- **Andrew Hill**. "Calibration and Synchronized Data Acquisition for High-Speed Applications." Tekscan North American Distributor Meeting. Boston, MA. **April, 2013**.
- **Andrew Hill**, Sina Kosari, Blake Hannaford, and Howard Chizeck. "Online Modeling of the *In Vivo* Mechanical Properties of Soft Tissue for Robotic Surgery." University of Washington Mary Gates Undergraduate Research Symposium. Seattle, WA. **May 2012**.

Study Abroad

- Creative Travel Writing and Sustainability in Ecuador Summer 2010
